

Black Archives Vertical Files

The Black Archives vertical files are based on the vertical files collection created by the Kansas City Public Library Lincoln Branch as part of its comprehensive collection of materials concerning African Americans. The branch started the vertical files collection in the early 1920s. When the Lincoln Branch closed in 1971, the entire collection, including the vertical files, moved to the Main Branch and was renamed the Ramos Collection, in honor of Dr. John F. Ramos, Jr., the first African American to serve on the Kansas City Board of Education. The Ramos vertical files are currently housed in the Missouri Valley Room at the Central Branch of the Kansas City Public Library.

The Black Archives of Mid-America received a copy of the Ramos vertical files from the Missouri Valley Special Collections Department in November 2013. The Black Archives of Mid-America will continue to add materials to the collection from the legacy holdings of the Black Archives.
